

**Box: Main Panel:**

**CAUTION**  
**KEEP OUT OF REACH OF CHILDREN**  
**READ SAFETY DIRECTIONS**

**BINKILL** [logo]  
**Protector**

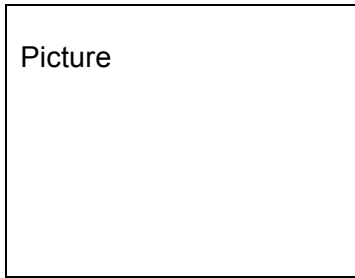

**ACTIVE CONSTITUENT: 186 g/kg DICHLORVOS** (an anticholinesterase compound)

Kills flies and maggots for up to 3 months

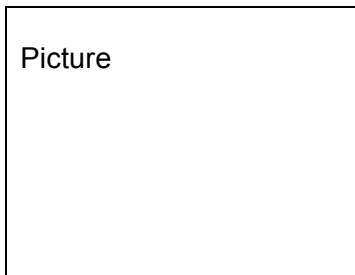

- Changes your wheelie bin from a fly breeder to a fly killer
  
- Economical - costs just a few cents a week

10.5 g NET  
2 x Binkill Protector packs (2 x 10.5 g NET)  
3 x Binkill Protector packs (3 x 10.5 g NET)  
4 x Binkill Protector packs (4 x 10.5 g NET)  
5 x Binkill Protector packs (5 x 10.5 g NET)

**Box: Back Panel:**

1. Open bin from front. Loop tie around handle at back. Push tie through locking device for one or two clicks only. Do not pull tight.

Protector Binkill should now hang inside your bin. Close lid and Binkill will kill flies, maggots and odours for up to 3 months.

**HOW TO USE**

Remove the Binkill Protector container from its wrapper. With the nylon cord provided hang the Binkill container inside the bin from one of the lid hinges. Ensure that the container is attached in such a way that it sits flush against the bin wall. In the panel provided on the Binkill Protector label insert today's date. Your Binkill Protector will need to be replaced three months after this date.

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THE LABEL UNLESS AUTHORISED.**

**HOW IT WORKS**

Immediately after the lid is closed Binkill Protector will start filling the bin with vapour, deadly to flies and maggots. It will also deodorise the bin with a pine oil fragrance. Binkill Protector works faster in the heat of the day, at the same time as the flies! The hotter the weather, the faster it works! But it only works effectively with the bin lid shut.

**CAUTION** - Do not contaminate ponds, waterways or drains with device or used containers. DO NOT use in food cupboards or food storage and food preparation areas.

**STORAGE & DISPOSAL** Store in the closed, original container in a cool, dry place out of reach of children. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in a plastic bag and putting in the garbage.

**SAFETY INSTRUCTIONS** Do not open inner pouch until ready for use. Do not remove the insecticidal strip from the plastic case. Do not allow children to play with the strip. Wash hands after use.

**FIRST AID:**

If poisoning occurs contact a doctor or Poisons Information Centre. Phone Australia 13 11 26.
